Key Highlights

- **Eliminate Billing Friction**
Automates fee-for-service invoicing to accelerate reimbursements and reduce denials. AI Optix auto-applies contract fees by modality, location, and payer, with same-day invoice dispatch and QuickBooks sync.
- **Turn Performance Data Into Motivation**
Real-time analytics and gamification reward top talent for loyalty, efficiency, and revenue contribution — driving higher throughput, satisfaction, and retention.
- **Centralized Hub for Every Stakeholder**
Real-time case tracking, approvals, live dashboards, and in-app chat keep partners, radiologists, billers, and operations aligned in one workspace.
- **One Integrated Operating System**
AI Optix runs as a single ecosystem, natively connected to PowerServer and OmegaAI.

Learning Outcomes

- **See how AI Optix accelerates reimbursements**
Automated invoicing, contract-fee logic, and same-day dispatch that shrink the billing cycle and eliminate denials.
- **Understand AI Optix's engagement model**
How transparent performance data and gamified incentives reward loyalty and reduce burnout and attrition.
- **Explore AI Optix's collaboration hub**
Real-time case tracking and approvals that eliminate bottlenecks between the people who matter most.
- **See the native RamSoft connection**
How AI Optix deploys as one ecosystem — rapid go-live, minimal IT lift, no middleware.

Who should attend?

Reading Group Administrators · Teleradiology Practices · Group CFOs & Practice Managers

Designed for radiology groups ready to stop managing chaos and start scaling performance.

“We stopped fighting fires and started running the business. Denials dropped, and our radiologists finally have a reason to stay.”

-Group CFO, Multi-Site Teleradiology Practice

See AI Optix end-to-end on August 26.
